They are accordingly so confined but State selections inside of said survey cannot be confirmed, because they formed part of the tract held under a valid Mexican grant. THE OHIO ELECTION FRAUDS

The following letter, which we find in our Eastern exchanges, gives the other side of the charges of fraud in the Wood county (Ohio) election

CINCINNATI Oct 18 1875

John G Thompson chairman of the Democratic State Executive Committee, requests the publication of the following statement

The Republican daily press of this State on Friday morning last published a dispatch signed "J M Thompson" which purported to be in answer to one claimed to have been sent from E B Dodd of Toledo, to Mr John G Thompson. This dispatch was furnished to the press by the Republican Executive Committee, and therefore they are responsible for its publication. I unhesitatingly say and charge that the Republican committee is aware of the truth thereof that I never sent such dispatch and that I am not aware that such dispatch was sent by any one else and if it was that I never saw it or had anything to do with forwarding it. The Republican committee has been guilty of a crime which the laws of this State declare to be felony. If such dispatch was never sent then they have perpetrated forgery. If it was sent there is but one way it could get into their possession—by theft. It was either stolen by them or they were accessory to the theft before or after it was committed. The [illegible] can take either horn of the dilemma. If it is forgery to write a name and they have written it or caused it to be written—then they have been guilty of forgery. If it is a theft to steal a telegram or to be accessory to the stealing of a telegram, or to use a telegram knowing the same to be stolen then they have been guilty of theft. I leave the character of the crime to be determined by the committee. As to the Wood county frauds the Republican committee is no doubt satisfied with them as that county has given an increased Republican majority

A man named Daniel Spring jumped from the Oakland ferry boat *El Capitan*, this morning when near Goat Island, and was drowned. He left his hat, containing a note as follows: "I prefer death to insanity. 9 o'clock A. M., Nov 2, 1875. Love to all, forgive, mother." From other papers found in his hat he appears to have had a family in Topeka, Kansas

More Narrow Gauge Roads

At a meeting of the citizens to obtain subscriptions to the narrow gauge railroad to be run from Deepwater on the bay to Santa Clara, thence through Redwood district to Santa Cruz, a committee was appointed to solicit subscriptions and report at a meeting to be held next Saturday evening. No doubt is entertained that the requisite amount will be raised

The Spaulding-Pinney Case,

SAN FRANCISCO, Nov 2—It is expected that the court of inquiry in the Spaulding-Pinney case will finish its work this week. There is a very general belief that the evidence against Spaulding will require the calling of a court martial, in which case the public will learn something of the facts

REV MR JAMES' CASE

HIS APPEAL TO THE CONFERENCE AND HIS LETTER TO THE BISHOP

DALLAS Oct 25 1875

TO THE EDITOR OF THE OREGONIAN:

Will you do me the favor to publish in your paper the appeal to the General Conference which Bishop Peck refused to let go before the Conference which met at Salem; also my letter addressed to the Bishop at San Francisco to which I have received no reply. I desire to set myself right before the public, inasmuch as I am cut off from the right of trial by the Conference, and of appeal by the Bishop being president, not only of the Conference, but of the General Conference. My rights are all I claim under the law. I therefore appeal to the judgment of an enlightened public for the same. Yours truly, J. JAMES

THE APPEAL

DALLAS, Oregon Aug, 11, 1875

To the Bishop and members of the Oregon Annual Conference of the Methodist Episcopal Church in Conference assembled—*Dear Fathers and Brethren*: I have given notice through the *Pacific Christian Advocate* of Aug 27 1874 of an appeal to the general conference, against the action of the conference in my case, of locating contrary to the law which provides that all traveling preachers shall have the right of trial and appeal which they have denied me in this case

The grounds of appeal are

First—I had no notice by the presiding elder or any other person that complaints would be made to the Conference against me and not being present when the complaint was made, could not meet my accusers face to face before the committee of investigation appointed by the presiding bishop.

Second—The committee of investigation, in their report to the Conference, preferred charges grave in their nature against me which were entertained by the Conference and by the act of the Conference I am denied the right of trial by committee or otherwise—a right secured by the constitution of the Church to all of its members

Third—By the showing of the minutes of the Conference the location is made to appear as by my request, which request was never made by me, or by my consent. I have always stood ready at any time to meet any charges that might be made against me, at Conference or elsewhere, when coming to my knowledge

I therefore appeal to the wisdom of the general Conference and ask that the action of the Oregon Conference had in my case of location, may be reversed, so that the right may prevail. I am yours, in the hope of the gospel of peace. J JAMES

A true copy

THE LETTER TO THE BISHOP.

DALLAS, Oregon, Aug. 18, 1875

BISHOP PECK [*Dear Father*]: It is with regret as I learn through Bro. H C Jenkins, that you refused to let my appeal to the General Conference go before the Annual Conference for their consideration, and that the appeal was cut off by default the notice in the *P C Advocate* being of no effect, that I was a local preacher, and my only show now was by recommendation and certificate of location thus confirming the action of the Annual Conference, if such be your rulings

Now the facts of the case are, I never have had the certificate of location and only informed by I D Driver, April 26, 1875, that he had such in his hands for me, and not having it with him, I called his attention to the notice given when he answered that he had seen it in the *Advocate*. There was nothing said as to its being illegal, had yet it is said that the appeal is thrown aside, because of time in which notice of appeal should be given, notwithstanding notice was published in the *P C Advocate* only one week after the action of the conference had in my case. I hope the Bishop will hear me while I acknowledge that my judgment may be at fault, but I have examined the Discipline and find nothing as to time when appeal should be taken, further than what is said in sec. 352, page 140 of Discipline which reads: "If the condemned person signify his intention to appeal at the time of his conviction or at any time thereafter, when he is informed thereof." The notice of intention could not be given at the time, from the fact I was not present, but so soon as the action of the Conference had in my case, was published by the press, the next week appears this intention of appeal, as published in the *P C Advocate*, of Aug 27, 1874, an official paper of the church, which notice, according to civil jurisprudence and other courts, is held to be legal notice. But if it be held that this notice of intention as published, be of non effect, then I have had no legal knowledge of the action of the conference, till April 20, 1875, when the Presiding Elder I D Driver informed me verbally that such had been the action of the conference, that he had the certificate of location for me. If this be legal notice, given verbally as it was, then the notice of the intention of taking appeal, given at the same time and in the same way (that is verbally), must must certainly have the same effect, so as to secure the right of appeal to the condemned

But the notice is made out in regular form, according to sec 353, page 142, Dis., and in the absence of any judicial conference having been appointed, it is directed to the bishop and members of the Oregon Conference, those interested in the case

I call the attention of the bishop to sec 354, page 140, which reads "When notice of appeal is given to the president of an annual conference he shall proceed with due regard to the wishes and rights of the appellant," etc

Now, if it shall be thought that both the notice of intention of an appeal, as published in the *Advocate* of August 27, 1874 and that given verbally on the 20th day of April, 1875, to the presiding elder, who is a counsellor, and, in the absence of a bishop, becomes the president of the Conference, will that which was read to the bishop be thought right as to form? Then the date is fixed when notice is given to the president of an Annual Conference namely, on the 11th day of August, 1875, and should the technicality stand in the way, that the appeal should be taken to a judicial conference, and not the General Conference. Then in equity I ask of the Bishop that I may make that correction so that justice may be had in the removing of the charge by which the Conference action was had without trial. Equity is all I ask; and now at this late hour, if the Bishop should lack for time to hold a judicial conference, will be in the absence thereof permit my case to come before the General Conference for their consideration, according to Sec. 359, page 142 Dis. The General Conference shall carefully review the decision of questions of law contained in the records and documents, &c., and take such action as justice may require.

An answer in return from the Bishop is earnestly desired, as that will determine my future course in the matter

With kindest regards, I am yours

J. JAMES.

ANTIQUITY

SALEM Oct 28, 1875

TO THE EDITOR OF THE OREGONIAN:

As a connecting link, between the past and the present, I wish to state some facts in regard to an ancient fort and some of its surroundings, discovered in West Virginia in an early day. Greenbrier county embraced, in 1805, a district in West Virginia, 30 miles north and south, and some 50 miles east and west. The falls of New river were 32 miles west of Lewisburg, the county seat of that county. At these falls, Lick creek emptied into New river from the east. Up this creek, 7 miles, there was an old stone fort, built by some former race of men, in a remote period of unwritten history. In 1813, the writer attended school near this old fort. Three of the walls were yet standing. A part of the other wall had been torn down. The surface, inside of the fort, was about one square acre. The walls were two feet thick. The trees inside the fort were large, and just such as grow on the outside. Often did we little scholars, clamber over the mass of ruins, at the north west angle of the fort and play ball inside of it. This old fort was on the creek bottom, at the forks of Lick creek. West and north west from the fort, were thousands of mound graves. About half a mile west of these graves, and all alone, was a lime globular mound, about 12 feet high to its apex and perhaps 75 feet in diameter at its base.

On its top there was laid some ten tons of rock of a superior texture, and unlike any other rock in that region of country. About the year 1818 the owner of the land there removed all that rock for building purposes. After this curiosity prompted him and his sons to dig down into that mound. At its center and upon a level with the surrounding land he found some calcined human bones, charcoal, and a few bones of a man not yet decomposed. Around these relics were found many stone implements highly wrought and polished. The stone was grayish in color, very hard, and utterly unlike any rock ever found in that locality. These implements were for war, for husbandry, for domestic uses and for ornament. They were given away and never preserved. The backwoods people seemed to care or think but little about them. The old grayheaded Indians there in 1774 knew nothing about who erected this fort or made those graves or that big mound. Here then were unmistakable signs of a civilized people on this continent in the "stone age," reaching back more than six thousand years! Many strange stories were told to us children concerning strange sounds as of armies in battle, warriors leading forth their men to deadly carnage, the clashing of weapons and the neighing of horses, but no report of guns

Greatly do I regret the fact that these stone implements were not preserved and placed in some museum, from whence they might have been finally transferred to the Smithsonian Institute at Washington City

Grostein & Binnard of Lewiston, recently sold all their mules, numbering 170 head to A H Robie, of Boise City. The price paid was $60 a head. They left there last week in charge of eight or ten old packers.

OREGON.

The river at Salem rose seven feet last Saturday night

The circuit court, Judge McArthur presiding was in session at Pendleton last week. Business was light

D M Taylor, of Pendleton lost a fine cow lately by throwing some very smutty wheat to her, which she ate.

At Milton precinct in Umatilla county last year there were over 200 votes cast. Last week there were only 92, but the voters are still there

Wells, Fargo & Co. offer a reward of $250 each for the capture and conviction of the Umatilla stage robbers and one-fourth of the money recovered.

A Coos county letter says "The State of Oregon—especially the southern part—is losing a large amount of valuable trade for lack of railroad communication with the harbors of this county."

Work on the Blue Mountain University at La Grande still progresses. The immense structure will soon be enclosed, and will be furnished as soon as the workmen can do the required work.

Eastern Oregon papers are already talking up a grand joint celebration for the Fourth of July, next year. The Union county fair grounds is proposed as the place, and everything east of the Cascades is expected to join.

Speaking of the Umatilla stage robbery the *East Oregonian* says: "It is not yet made public how much treasure the road agent secured, but from what we can learn they must have secured nearly $4,550, as there was $2 500 en route from J. W. Virtue to Millard & Van Schuyver in the box, together with $2,050 from other sources. The way-bill and all contents of the box were taken. There is good reason to believe that the right parties are spotted, and that eventually they will be arrested and punished."

The *Farmer* says: "Those who are feeding their winter apples to stock, or allowing them to fall ungathered, are throwing away valuable property. Fruit is scarce in California, as the crop of most kinds was nearly destroyed by late frosts last spring. They now have a partial supply, which will soon be consumed, and then there will be a demand for Oregon fruit at good prices; not only for the green fruit, but for all dried fruits of good quality, so that those who are engaged in manufacturing dried fruits may safely count upon a fair market on the Pacific coast."

The La Grande *Sentinel* of last Saturday says: On last Monday night, Sanford Baker camped with some freighters at the old California ranch, about six miles this side of Meacham's. About 1 o'clock at night they were aroused by a noise, and on looking out two men were discovered "going through" the "grub box." One of the freighters got up, and undertook to hold a conversation with the men, who did not appear to be very communicative. They mounted their horses and rode away in the night. The horses and men fully answer the description given of the stage robbers by Mr. Glover, the driver.

Last Wednesday evening, about 9 o'clock, says the Yreka *Journal* of the 30th ult., as the California and Oregon stage, driven by John Reynolds, was nearing Bass' station, a man stepped before the horses with a loaded gun, and commanded the driver to halt, which was done. He then told Reynolds to pass out the treasure box, who replied that it was in the bottom and that he could not get at it. The man then fired one shot, which scared the horses and off they went. Johnny, who had good command of the reins, was perfectly willing they should. There were six passengers, including one lady, who fainted. The passengers took good care of her, and all arrived at the station unhurt. The passengers saw two other highwaymen beside the one that fired the shot.

THE TERRITORIES.

Olympia is putting on airs. A boot-black establishment has been started.

Snow fell at Silver City, Idaho, on Thursday of last week, to the depth of three inches

The Idaho *World* makes mention of a quartz ledge over in the basin, which they call the "Keep Cool Ledge."

Heavy rains in Walla Walla valley last week damaged the roads a great deal, washing them out in many places.

Judge Whitson, of Idaho, has gone to New York city for the purpose of having a difficult surgical operation for hip disease performed

The Grangers' Hall, on Lewis river, will be dedicated by a grand ball and other festivities on December 3d, instead of the 4th, as before published.

A Walla Walla farmer shipped his wheat to Portland instead of selling it at home at 45 cents per bushel, and realized 67½ cents per bushel for it.

They have found a petrified Mormon in Utah, and from the number of dents in the head, evidently made with poker and flatiron, it is judged that he had at least thirty three wives.

Heavy rains came near causing an entire failure of the Walla Walla fair last week. The races were not very exciting, and of the exhibition the *Statesman* says: "The total entries up to the time we close our report foot up 161, which is vastly less than there would have been under more favorable circumstances. In the pavilion the display of fruit, although limited in quantity, is very fine. In the line of vegetables the exhibit is fair. On one of the counters we noticed samples of goods manufactured at the Dayton Woolen Mills, and certainly highly creditable representations of home manufacture. But it is in the line of live stock that the fair stands pre eminent. Looking over the pens we noticed a number of Cotswold, Leicester and Merino sheep, thoroughbred, that cannot be excelled anywhere. The exhibition of improved breeds of pigs is very fine, and indicates that our farmers understand that it pays better to feed wheat to hogs than to sell it at 50 cents a bushel."

A POSTMASTER IN TROUBLE

A Washington dispatch of Oct. 15, to the *Herald* says:

James E Dunham, postmaster at Bridgeport Conn, has been suspended by the President for having sold appointments. He was notified on the 9th inst by the Postmaster General that the knowledge of these facts had come to the department. He has not denied the allegation, and on the 12th inst. he and his friends asked that he might be permitted to resign and that nothing be said about it, to which the department reluctantly consented. His resignation not being forthcoming it was telegraphed for, and on Friday, the 15th inst. Dunham telegraphed that he would not resign, but gave no reasons for this change of mind. The office has been tendered by the Postmaster General to Colonel J W Knowlton, chief clerk of the postoffice department, who declines to accept until the Republicans of Bridgeport are consulted. If it should appear that he is not as satisfactory as any appointee would be to the patrons of the office Colonel Knowlton will probably decline, and the Republicans of Bridgeport will then be invited to name a successor to Mr Dunham. The salary of the office is $4 000 per annum. The following is a copy of the letter of dismissal sent by the Postmaster General to Mr Dunham on the 9th inst;—

SIR—Information having been received by this department that you have received money for procuring appointments, notice has this day been sent to Senator Ferry to name your successor. To particularize—Andrew J Osborne paid you $150 in three notes of $50 each for securing his appointment as route agent on the Housatonic Railroad and George L Howe, or his friends paid you $50, more or less, for securing his appointment as mail messenger, between Bridgeport and East Bridgeport. The rule of this department is invariable in this particular. It does not permit any postmaster or other employe to receive compensation or brokerage for procuring appointments. The necessity and propriety of the rule will doubtless be apparent to you.

SECRETARY CHANDLER'S APPOINTMENT.

HOW IT WAS RECEIVED—A MUSICAL INTERVIEW BETWEEN CHANDLER AND CAMERON.

The New York *Herald's* Washington correspondent, under date of October 19th, has the following:

It would be difficult to describe the effect produced here by the appointment of ex-Senator Zach Chandler to the Cabinet position of Secretary of the Interior. Like the old lady looking for the pair of specs lying in her lap, the politicians were peering in every direction over the horizon for the new Secretary instead of dropping their eyes into the lobby of Willard's, where the Michigan ex-Senator was chaffing the newspaper correspondents and parrying, with humorous ambiguity, their question if he had been tendered the appointment. His arrival in Washington with the President last week had given rise to a report that the vacant office had been offered him, but the shrewd old [illegible] Senator threw the news seekers off the scent with a well directed sally of his Wolverine wit, and the politicians forgetting President Grant's way of picking out men to suit his personal notions, set to work getting the most available and likely men in the line of selection for such an office.

[illegible] and Simon Cameron. It seems that on last Saturday the ex Secretary of War came down from Pennsylvania to get the Secretaryship for ex-Congressman Scofield, of Erie. The President, who was in no humor to see him, much less to listen to the demand, snubbed him. Ex-Senator Chandler heard of the trouble, and knowing Cameron's peculiar disposition, he went up to the hotel where Cameron was stopping, on Sunday afternoon, to console him. Chandler had been selected for, if not appointed to, the Secretaryship two weeks ago, but Cameron did not know it. Cameron was still angry, and on such occasions he always [illegible] his sentences. Both were standing before the fireplace when the

AMUSING PART OF THE INTERVIEW

took place. The gentleman from Michigan spit tobacco juice continually, while his Pennsylvania friend scratched the pimple on his Sewardian nose until it bled. Simon repeated a dozen times,—"I am going home to night," and as often as he said it Zachariah entreated. "Now, Simon, don't go to-night. Stay a little longer. There will be a better chance to-morrow."

Cameron rejoined:—"No, I am going on the next train. This is a hell of a time, any way. If I ask for the appointment of doorkeeper, Grant says, 'Cameron wants everything.' If I want a clerk appointment in the department, Grant says, 'Cameron wants everything.' I am going home on the next train. Damn the administration, any how!"

Then the good Zachariah [illegible] with his old senatorial ally again.

"Now, don't talk that way, Simon. Things will be better to-morrow." And all the while he was thinking of his own appointment two weeks before as Mr Delano's successor, which Mr. Cameron did not appreciate in the way that his friend would have him.

During Cameron's brief visit he was asked to do a favor for a friend, to which he invariably replied:

"I can't do anything until after the Pennsylvania election, then I may have some authority."

The friend remonstrated with him for his procrastination, and assured him that the State would surely go Republican. To which the venerable politician said:

"I don't know about that, better pray for it," and his face beamed with ironical smiles. Cameron left on the next train

It is understood that Cameron has demanded so much of the administration that Grant would stand it no longer, and resolved to assert his independence of the great power which has ruled Pennsylvania for so many years.

The burnt district in Walla Walla is already being rebuilt.

WEDNESDAY MORNING NOV 3 1875.

KEEP IT ALIVE

A number of our prominent citizens have expressed a willingness to contribute toward the establishment of a Reform School The law requires that as a condition precedent to obtaining aid from the county that there shall be raised by private contribution $2 500 When that is raised the corporation may demand of the county the appropriation of an equal amount This sum will be sufficient to procure the necessary land and construct buildings such as will be suitable for a long time for the purposes of the institution Ample provision can be made to keep the school on foot after it is once established There are not less than twenty five boys in the city at this time who if such an institution were established would find their way to it in a very short time—boys who are now at large, and are daily leading other children into criminal habits, simply because it seems too bad to hustle mere babies off to the Penitentiary, and there is no other place of confinement to which they can be sent The work now begun of trying to get the Reform School in operation should not be allowed to flag. If the interest die out leaving the work unaccomplished it will be much harder to start it up again It can not be that the people of our city will stand by and see the list of child criminals grow larger every week Who that has children can say that his child will not be the next one led into vicious ways and placed on the high road to the State prison or the gallows This subject is one that addresses itself as a personal matter to every parent Let it receive the consideration its importance entitles it to, and let the committee on ways and means, appointed Monday night, be able to report at the adjourned meeting that the requisite ways and means have been found so far as the matter of voluntary contributions is concerned The law provides *for the rest and the institution can be in operation in temporary quarters within a week after that meeting,* if only this first step be successfully taken

A COMPARISON

A striking contrast is presented between the opportunities of laboring people in England and those of the same class in America, by comparing the advertisements which appear in English newspapers with the known rates of wages in this country In a leading paper of England which we have before us are a number of these advertisements, many of which state the wages that will be paid The highest is a notice of a "gardener wanted," where it is stated that the wages, "including perquisites," will amount to £50—$250 per annum In this country a skilled gardener would expect to receive from $800 to $1,200 a year, and none of it in the form of "perquisites." Then there is a notice for a governess, who is assured that she will received £20—$100—a year, and a "[illegible] who can take care of a horse and understands the management of a lawn," can have a place for £10—$50—a year, and found These are the limits various other offers ranging between them, according to the service required and the skill of the person performing it And yet bread and meat—the main articles of the living of the common people—are higher in England than with us The laborer can not get on as easily in this or any other country as the man of wealth, but this comparison shows at a glance how much better chance he has in America than in the old country

RED CLOUD COMMISSION ON THE INDIAN POLICY

No doubt it was a very pleasant thing for Ex Secretary Delano and Commissioner Smith for the Red Cloud commission to render a verdict in their favor on the charges of fraud made by Prof Marsh As to Mr Smith, the verdict was doubtless very proper, and ought therefore to be gratifying to the whole country That which is more gratifying than a certificate of good character from the commission for any individual is the remarks in the report concerning the future management of the Indian bureau The commission look with disfavor upon the proposition that the management of Indian affairs be transferred to the War Department" This is not a mere prejudice of the commissioners They are men of too much education and practical experience to be given to unreasoning prejudice, and they show their appreciation of the usefulness of the army in connection with the Indian administration, by mentioning the advantages of having military officers present at inspections and delivery of annuities This commission have given more attention to the subject of Indian management than, perhaps any other persons outside the agencies, and their conclusions are worthy of special consideration

BELLIGERENT RIGHTS FOR CUBA

The Paris *Memorial Diplomatique* published recently a report that Hon Caleb Cushing, United States Minister to Spain acting under instructions from the Government at Washington had notified the Spanish Government that unless the insurrection in Cuba should be suppressed by the first of January next the United States would feel warranted in according belligerent rights to the Cubans This the Washington *Chronicle* considers exactly right, only that there ought to be no deferring the act to the first of January The reason assigned is that the insurrection has been kept up long enough to entitle the insurgents to that recognition Why not, on the same basis accord belligerent rights to the Mexican brigands along the Rio Grande They have been plundering and robbing their neighbors quite as long as the Cuban banditti have and Mexico has frequently admitted that she could not prevent it We are not disposed to quarrel with the *Chronicle* only we don t see why the same rule should not apply to the one case that is applied to the other.

The Eugene City *State Journal* thinks the time has come for independent Republicans to unite with all others who profess adherence to the principles of the Republican party and it cordially invites the co operation of Independent Republicans against the Bourbon Democracy This conciliatory policy is an evidence of good sense There are signs, however that it is looked upon with disfavor by the Republican regency here which it is whispered is quarreling with the wiser ones of its own members who are charged with lessening that harmony and unity of action which the Eugene *Journal* calls for This grave offense on their part is said to be a cause of great commotion in the inner circle It would seem that the *Journal* does not fear as the gentlemen of the regency evidently do that the Republican party in Oregon is in danger of becoming too large

There is not the least probability says the Chicago *Tribune* that the soft money Democrats will give up They fought out the issue stubbornly in 1868 and were defeated they will do it again in 1876 and will be again defeated Their chances of success are less however now than they were in 1868, for there was then no split in the Democratic party But next year the hard money Democrats will decline to share the disgrace of the movement with any prospect of success

The Washington *Chronicle* is responsible for the statement that at Sparta, Tennessee graves of pigmies have been found with headstones and pottery The skeleton of one pigmy was twenty six inches long the thigh bones being little thicker than a man's finger It is supposed that a race of these little beings existed long before the birth of William Allen

The Shreveport (La) *Times* says We are not disheartened by the defeat in Ohio We have been whipped in a foolish raid we have ample time to call in the scouting parties reorganize our line and win the great battle of 1876 for honest administration of public affairs, constitutional government local self government and justice to the South

Dr Gwin, quondam Duke of Sonora has been talking oracularly about the next Presidency. He says he is in favor of Governor Tilden but that the Democrats of the Pacific generally prefer Thurman or Hendricks He announces that Grant will be the Republican candidate which, we suppose settles the Third Term question

General Butler is reported as saying that the result of the Ohio election is practically an indorsement of inflation and that if the school question had not influenced the vote Allen would have been elected by from 1[illegible]000 to [illegible]0 000 majority

LETTER FROM CALIFORNIA

WINTERS Cal, Oct 23 1875

TO THE EDITOR OF THE OREGONIAN

Since my last I have visited Benicia Mare Island, Vallejo and San Quentin At each of the places the observer is struck with the wanton and reckless manner in which the peoples money is squandered at Vallejo in particular. Just now they are holding a "way up" investigation into the doings of Naval Paymaster Spaulding, and Geo M Penney quondam of newspaper and U S marshal fame in Montana Territory Spaulding seems to have been a sleepy gentleman, though we hope not the member of the firm, doing the heavy dignity part while Penney the chief purchasing clerk of the department, entered diligently into all that part that required dark ways and vain tricks and with such untiring industry and sleepless energy did he apply himself to the duties of the position which he held that his health failed, and that his physicians advised a tour on the Asiatic continent. One can see at a glance that the labor must have been simply enormous as he, in the short period of eighteen months accumulated $1,750 000 He is now roughing it on that capital in a foreign land As soon as he had got well out of the country some busy body raised a terrible hue and cry exclaiming with a loud voice with much virtuous indignation "Something stinketh in Vallejo!" The upshot of the matter is that we now have a high joint that is consuming much time and old commissary in investigation The conclusions so far as reached are as follows —First that Penney is a very bad egg second that Penney has got the stamps and third, that Penney is not about Vallejo having departed some time ago for Japan amidst the loud lamentations of his numerous admirers and with much hand shaking The only consolation his myriads of friends had in the loss of his society was, to know and see the great splendor with which he was surrounded on shipboard I suppose after the testimony is all in the court will find further that somebody has lost in the neighborhood of $1 750 and that Uncle Samuel like the long suffering and forbearing old uncle that he is must foot the bill That there are a dozen or two accomplices that are equally guilty with Penney everybody knows as it would be impossible for any one man to carry on so gigantic a swindle alone but as he is now gone, of course they all plead not guilty, and seem wonderfully astonished to think that there is anything wrong Spaulding is being sharply criticized by the San Francisco press just now for retaining such a man in so responsible a position but he exonerates himself by saying that a clique of influential politicians forced Pinney upon him and gave him to understand that should he remove him his own official head would roll into the basket, for such cases made and provided

THE COURTS

Having got through with an ex-harbor commissioner who poor fellow was without a "power behind the throne, he now languishes in the penitentiary The number of his ducats was limited although it was proven that he "got away" with San Francisco to the tune of $30 000 But such a steal is now getting to be classed as petty larceny, and the guilty party is put down as ye common "vag" consequently justice is strictly meted out to the unfortunate commissioner

THE TAPE WORM

Government appropriates from $30 000 to $900 000 every year for the Mare Island navy yard and the money is judiciously expended in getting up a classical tape worm ticket and in carefully tearing down and setting up a half dozen old hulks dubbed naval vessels One-half of them never were outside of the harbor and never will be —in fact never were intended for anything but to give employment to a class of men who can be and are at each election driven to the polls armed with a tape worm ticket, to vote as their masters dictate

THE GRAIN MARKET

Having fluctuated up and down to an unusual extent this fall several small dealers have gallantly gone to the wall Those who were able to hold on to their grain are again jubilating as the foreign market is stiffening up and per consequence there is an advance here

THE SHIP IN THE DESERT

And now comes a party by the name of Haines, and is lecturing throughout the country places on the subject of geology Amongst other things which he has seen in his travels on the Pacific coast is the "Wreck of a Ship in the Desert" He alludes to that vast waste situate in Colorado, which is by actual measurement some hundreds of feet below the level of the sea and he exhibits pieces of copper and copper rivets which he claims were taken from the petrified hull of the vessel He places the architecture coeval with that of the building of Solomon's Temple He also tells us that the Aztecs are one of the oldest nations in the known world and that at the time of the wreck of the vessel mentioned California and New Mexico were one vast sea upon which vessels sailed in the commerce of the world That there is an inkling of truth in the professor's story seems quite probable as ruins of vast cities have been and are now occasionally discovered in the extreme southern part of this State and in Arizona

PROOF SHEETS OF JOAQUIN MILLER'S NEW POEM

Have been furnished all the leading papers of this State and the variety of comments on the same goes to show the variety of tastes of which the average editor is possessed One editor goes on to rhapsodies pronouncing it simply divine while another calls it the most sickening and dismal trash The most sensible commentary I remember of seeing is in the *S F Call* which is to the effect that Miller is a fixed fact as a poet and that the day to sneeze him down is past. Although his poems abound in absurdities and strictly speaking, poetical blunders yet the beauties that enter into and relieve the rough edges more than compensate for the crudeness of the material and looseness of construction

WEDNESDAY MORNING, NOV. 3 1875

CITY.

FALSE AND SLANDEROUS.—In a recent number of an illustrated paper published in New York city we observe the following veracious paragraph: "Two sisters named Gibson residing in the town of Portland Oregon inherited a handsome property from their deceased parents, on condition that they should always care for a younger sister, whose mental faculties were impaired and who was not considered capable of taking care of herself. The three lived together, as neither of the older sisters had married and it was whispered among the neighbors that they shamefully abused their unfortunate charge. A gentleman in passing the house not long since heard the most heart rending cries and moans proceeding from within, and remembering what he had heard he unceremoniously entered. There was no one visible in the lower part of the dwelling, and he ventured to ascend to the second story. Guided by the cries he proceeded to a back room where he beheld a sight which curdled his blood with horror. Tied up by her hands to a rope suspended from the ceiling in the center of the room was the unfortunate idiot, while one of the unnatural sisters was beating her with a heavy stick, and the other also grasping a cudgel stood by evidently intending to continue the brutal outrage when her sister had become exhausted with her shameful labor. The gentleman at once interfered, and in spite of the threats and maledictions of the two viragos removed the poor demented creature to his house." It would be difficult to imagine a statement which has less foundation in truth than the above. Suffice it to say, that no such a case of heartless brutality ever occurred here. There is not the shadow of truth in the whole story and such pure fabrications are calculated to reflect no credit on our city.

SPARS AND RIGGING DAMAGED.—Mr Charles Lancaster, of the house of R. C. Janion & Co received a dispatch yesterday from Victoria which conveyed the unwelcome intelligence that the British bark *Blanche* had just put in at Esquimalt with her spars and rigging damaged. The telegram was very meagre and did not furnish any particulars further than that the vessel had arrived in a damaged condition. The *Blanche* went to sea last Thursday, bound for Europe, with a full cargo of grain. It has been reported rough and heavy off the coast for some days, and the *Blanche* on crossing the [illegible] must have experienced a tremendous southern gale, which drove her far northward and carried away a portion of the rigging. Full particulars will be furnished to day by telegraph.

AN ACCIDENT—ALMOST.—While Gen. Howard and party were going from Wallula to Walla Walla they had a narrow escape. They left the former place on Monday night by an extra train. After fourteen or fifteen miles out between the Walla Walla and Touchet bottom the track crossed a trestle work some 1,200 feet long and about 50 feet high. At the beginning of this the grade had been washed away by the rain. It was very dark and the superintendent had gone before the engine to examine, but before its progress could be stopped, it had passed on to the dangerous place with the tender and was supported merely by the iron rails. The passengers got out until the engine and the cars were brought over.

PAMPAS GRASS.—Yesterday we were shown at [illegible] store, East Portland several [illegible] of grass which belong to the variety known as "pampas grass." This grass flourishes with great luxuriance on the immense plains of South America. It is very beautiful, and a bunch can hardly be distinguished from a duster made of ostrich feathers. The fibres of the grass are so fine that at a little distance they resemble silken threads. On the pampas this grass grows wild, but it is cultivated in California as an ornament. The bunch on exhibition was sent from California.

THE "RED JACKET."—Last Sunday the little ferry boat *Red Jacket*, which has been crossing the Columbia between Vancouver and the Oregon shore, was brought around to this place for repairs. The boat now lies moored at the foot of J street, East Portland. In a short time workmen will commence to give the little craft an overhauling. Meantime there will be no ferry across the Columbia at Vancouver until the *Red Jacket* is ready for service.

RETURNED.—Gen. Howard, Capt Wilkinson and the party arrived last evening from Walla Walla, where they were summoned over a week ago to attend the bedside of Capt. Sladen who was in a very critical condition. When the General left Walla Walla Capt Sladen was slowly improving and strong hopes of his ultimate recovery were entertained. General Howard was serenaded at the Umatilla House on Monday evening by the Dalles brass band.

DEATH AT THE ASYLUM.—John Neuber for some years a resident of Jacksonville, who has been an inmate of the Insane asylum at East Portland for some three years past died at that place on Monday. His insanity is said to have been the result of injuries received while running to a fire in Jacksonville, and no hope of his recovery had been entertained for some time past. The remains were taken to that place for interment.

GRAND JURY.—In the United States district court yesterday, an order was issued for 36 grand jurors, who are required to be present at the regular term of the court on the 30th of [illegible]. Mr. Wilcox, the clerk, will issue the venire to-day, and place it in the hands of the U. S. Marshal.

NOMINATIONS.—At the regular meeting of Columbian Engine Company, No 3, held last evening, the nomination of Mr J H Lyon for chief engineer, by Willamette Co, No 1, was endorsed, and Mr W A Hart of Columbian's, was renominated for assistant engineer.

ENTERTAINMENT.—There will be an entertainment and supper given by the Women's Guild of St. David's parish at the Odd Fellow's hall, East Portland, Thursday evening Nov 4, 1875. Doors open at 7 o clock.

MORE RETURNS.—We have received official returns from Yamhill county which appear in the proper column. We are indebted to County Clerk Rogers for the table. The returns come in very slowly.

Mr Ellsworth was in attendance at the R. W. Grand Lodge which convened at Indianapolis on the 20th of September. He has been absent from the State about three months, during which time he has traveled extensively over the Atlantic States and returns home greatly improved in health.

OREGON CITY ITEMS.

The organization will be completed next Monday evening, and then the club will proceed to deliberate upon, and finally set at rest, some of the important questions of the day.

A requisition was obtained yesterday from the Governor for the arrest and return of John Eastabrook, who is now under arrest in San Francisco. He is charged with obtaining money under false pretences not long since, in Oregon City while acting as agent for a San Francisco firm. H C Stearns is appointed to make the necessary demand of the California authorities, and will start to San Francisco at once.

The Oregon City *Enterprise* long a staunch Grover Democratic organ has changed hands and will hereafter be "Liberal." Some Democrats say this means Republican. Republicans hope it is true, but doubt. In any event Gov Grover has lost one of his staunchest supporters and principal fuglemen. Many Democrats of this county however, who have supported the *Enterprise* heretofore, will be well pleased with the change of character—from that of a personal organ to a Liberal newspaper. Under the new management, Mr F S Dement is editor and proprietor. It is understood that he has assistance in the editorial department. He proposes to run the paper in the interest of the people, to be the organ or partisan of no party or clique and to rely on the good sense of his patrons, Democratic or Republican to sustain the paper in its honest efforts to champion the right and denounce the wrong without regard to political parties.

A Scotch minister who was famed for his dryness in the pulpit called on one of his aged hearers and as usual partook of a cup of tea. He remarked to the guid wife that her teapot ran very slowly. "Deed, sir," quo the guid wife, "it's like yersel'; it has an unco bad delivery."

A Massachusetts man is currying favor with the fair sex by a tract in which he seeks to show that there are two heavens one for men and one for women. The latter are to pass into their heaven without discrimination but the men are to be sifted before admission.

The ignorance of foreigners is something superb. Dumas has written an American novel in which a coon chases a couple of young United States lovers up a tree and then tries to get them by gnawing through the trunk. Dumas says the Virginia coon is as large as a yearling calf.—*N Y Com Advertiser.*

An old Scotch parson who was not only a preacher but a parson and who on weekdays returned the visits which his people made him at the kirk on Sundays, once came to the house of a parishioner where his gentle knocking could not be heard for the noise within. Upon this he lifted the latch and walked in saying in a majestic way "I should like to know who is the head of this house?" "Weel, sir," said Sandy, "if ye'll bide a wee we'll maybe able to tell ye, for Janet and I are just trying to settle that point."

DISPATCHES IN THE AIR.—An ocean-roaming bird, of great docility, intelligence and spirit, has been found in Iceland which flies at a speed of 150 miles an hour and is able to find its home over sea and land from any part of the habitable world. A pair of these birds a few days ago brought dispatches from Paris to a lonely spot in a wild and rocky part of Kent, within ten miles of London, in one & half hours. Press carrier pigeons took the dispatches on to the city the whole distance from Paris to London by actual parcel mode of conveyance being done within one and a half hours. If the experiments at present being made in training and educating them continue successful it is hoped by next summer to establish a daily miniature ocean mail between America and Europe, the whole distance to be traversed between sunset in one hemisphere and sunset in the other.—*London Live Stock Journal.*

It is claimed that the financial condition of this coast is not so ominous as while cash coin is represented as scarce and difficult of access to our own people very large sums are being constantly shipped to the East. The *Banker and Depositor* of San Francisco says the amounts forwarded during the last two weeks in October clearly prove that there is no absolute scarcity but that the money is withheld from the market for the purpose of imposing exacting terms. Those who are doing this are engaged in a business which certainly evinces a short sighted policy, as it is the part of wisdom to build up that it may enjoy, and sow that it may reap, while the course pursued by California capitalists is crushing out trade and militating against all the commercial interests of the country. The same paper says:

If any one doubts that there is money here sufficient for all our needs if permitted to circulate and fulfill its legitimate functions, let him attend any of our horse races, theaters, or places of public resort and note how largely they are patronized, or let him take cognizance of the fact that we have forwarded $1,984,128 in treasure to the East within two weeks, of which $1,518,231 were in gold coin.

At the annual meeting of the Bank of California it was shown that the assets of the bank were $14,000,000, and the liabilities $10,000,000. This does not include capital stock, which is estimated at $5,000,000 more. With a good year, it is claimed that most of these assets will be realized. In any event depositors and other creditors will all be paid off, and there will be at least $1,000,000 to divide among stockholders, and this may possibly be increased to $2,000,000 or $3,000,000. Since the opening the volume of business at the bank has been nearly as before the temporary suspension.

The *Monetary and Mining Gazette* of London of Sept. 18th contains the following concerning the Bank of British Columbia. The directors have issued their report to the meeting on the 21st instant, in which they state that after paying all charges, deducting rebate of interest on bills not yet due, and making provision for bad and doubtful debts, the balance at credit of profit and loss on the 30th of June last was £15,765, of which it is proposed to appropriate £11,920 to the payment of a dividend for the half year at the rate of 8 per cent. per annum, to add £2,000 to reserve fund (increasing it £27,000) and to carry forward £1,843. The balance sheet contains the following items: Liabilities upon deposits, notes in circulation, bills payable, etc., £683,950; capital paid up £298,000; assets, bills discounted and bills receivable and other securities, £828,428; specie and bullion in hand and cash at bankers £142,782.

Miscellaneous.

W Jackson and George T Myers of this city have purchased the salmon cannery of R D Hume at Rainier, and will enter largely into the business of catching and shipment of salmon at that point.

The number of vessels clearing with Oregon wheat for Europe in October this year was 9 against 10 in the corresponding month in 1874, but the vessels this year were of a much larger class and carried 147,526 bush. wheat and 9,442 bbls flour more than those last year. The value of wheat and flour shipments in October this year was also greatly in excess of those of last, being $653,956 against $282,589, or more than double.

The exports from the leading American seaboard ports during the week ending October 31st, include 2,467 barrels of pork, 1,600,126 pounds of lard, 2,675,710 pounds of bacon, 51,068 barrels of flour, 609,235 bushels of wheat, 581,783 bushels of corn.

Below will be found the amount of grain in sight in the States and Canada October 9, 1875: Wheat 9,56[illegible],127 bushels; corn, 6,907,992 bushels; oats 2,741,0[illegible] bushels; rye, 814,007 bushels; barley 1,271,[illegible]80 bushels.

The Kansas City stock yards received 207,060 head of cattle, 212,553 hogs and 8,855 sheep during the year past, all valued at $8,364,28[illegible].

Flour in this market is 75 cents per barrel higher than it was one year ago, wheat 40 cents per cental, oats 28 cents per bushel, butter 5 to 10 cents a pound, eggs [illegible] cents per dozen, and lard 2 cents per pound higher. Bacon and wool only of all leading produce are quoted lower than at a corresponding date last year.

The produce market shows an increased movement to-day, the receipts of wheat and flour from the Upper Wallamet being heavy. The number of grain ships at hand to load will induce a very active state of trade during the month. Quotations however, are not materially changed.

Since the 29th ult. we have received no quotations of the Liverpool wheat market, but general dispatches of the 2d inst. have a tendency to confirm the feeling of holders, who show no disposition to concede to any decline here.

It is believed that potatoes will bear a good price on this coast during the coming winter and next spring, and reports of short and inferior crops in many sections confirm the belief. In many parts of California the blight has seriously affected this vegetable, and a good demand will be apt to rule for the small surplus which Oregon may have.

Shipping Intelligence.

The steamer Gussie Telfair will sail for Victoria and intermediate ports to-morrow at 4 P. M.

The steamship California from Puget Sound ports will be due to-morrow.

The Br ship Collingwood, under charter to load wheat at this port for Europe, arrived this morning and will discharge ballast and load at once.

The Br bark Blanche, which sailed from Astoria Oct. 8th for Liverpool, has put into Esquimalt in distress. Particulars are given elsewhere.

The Gen Moon, Loch Fleet, Baron Aberdare and another vessel or two are due from San Francisco, all grain ships under charter.

The Br ship Lanarkshire, at Astoria, will complete her cargo to-morrow.

The Collingwood landed at Albina this morning and [illegible] her ballast there.

The Br ship Orbedale en route from San Francisco for this port is one week out.

The bk Tam O Shanter was towed down the river this afternoon. She will load stave bolts for San Francisco.

A bark and a ship, names unknown, came in across the bar at Astoria last night. Probably the Gen Moon and Baron Aberdare.

The steamer John L Stephens, from San Francisco, reached her berth at 9 30 o'clock this morning.

POND'S EXTRACT

"Hear, for I will speak of excellent things."

POND'S EXTRACT—The great **Vegetable Pain Destroyer.** Has been in use over **thirty years,** and for cleanliness and prompt curative virtues cannot be excelled.

CHILDREN. No family can afford to be without **Pond's Extract. Accidents, Bruises, Contusions, Cuts, Sprains,** are relieved almost instantly by external application. Promptly relieves pains of **Burns, Scalds, Excoriations, Chafings, Old Sores, Boils, Felons, Corns,** etc. Arrests inflammation, reduces swellings, stops bleeding, removes discoloration and heals rapidly.

FEMALE WEAKNESSES. It always relieves pain in the back and loins, fullness and pressing pain in the head, nausea, vertigo.

IN LEUCORRHŒA it has no equal. All kinds of **ulcerations** to which ladies are subject are promptly cured. Fuller details in book accompanying each bottle.

PILES—blind or bleeding—meet prompt relief and ready cure. No case, however chronic or obstinate, can long resist its regular use.

VARICOSE VEINS. It is the only sure cure.

KIDNEY DISEASES. It has no equal for permanent cure.

BLEEDING from any cause. For this it is a **specific.** It has saved hundreds of lives when all other remedies failed to arrest bleeding from **nose, stomach, lungs,** and elsewhere.

TOOTHACHE, Earache, Neuralgia and **Rheumatism** are all alike relieved, and often permanently cured.

PHYSICIANS of all schools who are acquainted with **Pond's Extract of Witch Hazel** recommend it in their practice. We have letters of commendation from hundreds of Physicians, many of whom order it for use in their own practice. In addition to the foregoing, they order its use for **Swellings** of all kinds, **Quinsy, Sore Throat, Inflamed Tonsils,** simple and chronic **Diarrhœa, Catarrh** (for which it is a *specific*), **Chilblains, Frosted Feet, Stings of Insects, Musquitoes,** etc., **Chapped Hands, Face,** and indeed all manner of skin diseases.

TOILET USE. Removes **Soreness, Roughness** and **Smarting;** heals **Cuts, Eruptions** and **Pimples.** It *revives, invigorates* and *refreshes,* while wonderfully improving the **Complexion.**

TO FARMERS—Pond's Extract. No Stock Breeder, no Livery Man can afford to be without it. It is used by all the Leading Livery Stables, Street Railroads and first Horsemen in New York City. It has no equal for Sprains, Harness or Saddle Chafings, Stiffness, Scratches, Swellings, Cuts, Lacerations, Bleedings, Pneumonia, Colic, Diarrhœa, Chills, Colds, &c. Its range of action is wide, and the relief it affords is so prompt that it is invaluable in every Farm yard as well as in every Farm house. Let it be tried once, and you will never be without it.

CAUTION! Pond's Extract has been imitated. The genuine article has the words **Pond's Extract** blown in each bottle. It is prepared by the **only persons living** who ever knew how to prepare it properly. Refuse all other preparations of Witch Hazel. This is the only article used by Physicians and in the hospitals of this country and Europe.
